## To Level Device With Secure-Trim

1. Remove **Protection Plate**.
2. Adjust **Device Screws** out evenly to bring **“Secure-Trim”** above the wall surface if necessary.
3. Detach **Leveling Tabs** from **“Secure-Trim”** and install **Leveling Tab** slots onto the **Device Screws** behind the device straps as shown.
4. Adjust **Device Screws** until the **“Secure-Trim”** is flush and level with the wall surface.
5. Install device cover as normal.
