To Level Device With Secure-Trim

1. Remove **Protection Plate**.
2. Adjust **Device Screws** out evenly to bring “**Secure-Trim**” above the wall surface if necessary.
3. Detach **Leveling Tabs** from “**Secure-Trim**” and install **Leveling Tab** slots onto the **Device Screws** behind the device straps as shown.
4. Adjust **Device Screws** until the “**Secure-Trim**” is flush and level with the wall surface.
5. Install device cover as normal.
