Qualifications:

This proposal is based on the use of Stud Brackets, Mounting Height Supports are available for an additional fee.

Proposal is based upon our interpretation of the documents provided and is limited to the items and quantities listed

Proposal is based upon providing **Residential Grade Ivory** wiring devices unless otherwise noted.

Standard assemblies consist of an outlet box, box support, plaster ring, commercial grade device with pigtails and wagos, protection plate, **MC-AP cable whip**, and snap-in style connectors unless otherwise noted.

All vertically mounted receptacles will be provided with the ground oriented down and all horizontally mounted receptacles will be provided with the ground oriented to the right unless otherwise directed in writing.

Plaster rings for assemblies will be provided one size larger than the drywall dimension given (i.e. 5/8" plaster ring for 1/2" drywall) unless directed otherwise in writing prior to release of order.

We have not included provisions for fire alarm, telephone / data or any other system devices not listed above.

Freight is included for the items listed above. We have based our freight allowance on optimum shipping splits and scheduling. Any additional cost associated with special requirements such as expedited delivery or multiple shipments shall be the responsibility of the buyer.

Sales tax is not included.

Layout drawings, where required, will be provided for approval within (1) one to (2) two weeks from the receipt of a written order.

Initial product shipment will begin within (2) weeks of return of approved layout drawings or written release of the bill of material.

Pricing in this proposal shall remain firm for a period of 30 days.

Thank you once again for the opportunity to bid this project. Please do not hesitate to call should you have any questions regarding this proposal.

Sincerely,
Denier Manufacturing
